Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

The RIMINARM Family of Neuronal C2 Domain Proteins with

RT Rab3 and a new class of Src homology 3 domain proteins.";

The RIMINARITY: CONTAINS 2 C2 DOMAINS.

C. -! - SIMILARITY: CONTAINS 1 PDZ/DHR DOMAIN.

Kalloki J., Elliott G.;
Kalloki J., Elliott G.;
Submitted (FEB-1998) to the EMBL/GenBank/DDBJ databases.
-!- FUNCTION: May act as a scaffolding protein involved in the organization of synaptic active zones and in synaptic vesicle trafficking (By similarity).
-!- SUBUNIT: Interacts with Rabacl/Fral and profilin (By similarity).
-!- SUBCELLUAR LOCATION: Concentrated at the presynaptic side of synaptic junctions (By similarity).
-!- ALTERNATIVE PRODUCTS:

IsoId=Q9Y6V0-2; Sequence=VSP_003923, VSP_003924, VSP_003925, lsold=Q9Y6V0-1; Sequence=Displayed; Name=2; Name=1

Bvent=Alternative splicing; Named isoforms=2; Comment=Additional isoforms seem to exist;

             FUNCTION: INTERNEDIATE FILAMENT-ASSOCIATED PROTEIN THAT ASSOCIATES IN REGULAR ARRAYS WITH ERRATIN INTERNEDIATE FILAMENTS (KIF) OF THE INNER ROOT SHEATH CELLS OF THE HER FOLLICLE AND THE GRANULAR LAYER OF THE RECOMES CROSS-LINKED TO KIF BY ISODIPPETIDE BONDS. IT MAY SERVE AS SCAPPOLD PROTEIN, TOGETHER WITH INVOLUCIRIN, IN THE ORGANIZATION OF THE CELL ENVELOPE OF EVEN ANCHOR THE CELL ENVELOPE TO THE KIF NETWORK. IT MAY BE INVOLVED IN ITS OMN CALCIUM-DEPENDENT POSTSYNTHETIC PROCESSING DURING TERMINAL
                                                                                                                                                                                                                                         -i- SUBUNIT: Monomer (Probable).
-i- TISSUE SPECIFICITY: FOUND IN THE HARD KERATINIZING TISSUES SUCH AS THE INNER ROOT SHEATH (IRS) OF HAIR FOLLICLES AND MEDULLA, AND IN THE FILIFORM PAPILLAE OF DORSAL TONGUE RFITHELIUM (PROBABLE).
-i- DEVELOPMENTAL STAGE: EXPRESSED DURING LATE DIFFERENTIATION OF THE EPIDERMIS.
                                                                                                                                                                                                                                                                                                                                                                                         -!- DOWAIN: CONSISTS OF NINE DOWAINS. DOWAIN I CONTAINS TWO EF-HAND CALCIUM-BINDING DOWAINS. DOMAINS 2-4, 6, AND 8 ARE ALMOST RETICAL. CONFIGURED & A SERIES OF PEFFIDE REPEATS OF VARYING REGULARITY, AND ARE THOUGHT TO FORM A SINGLE-STRANDED ALPHA-HELICAL ROD STABILIZED BY IONIC INTERACTIONS. DOWAINS 5 AND 7 ARE LESS WELL ORGANIZED AND MAY INDUCE FOLDS IN THE MOST REGULAR AND MAY BIND KIP DIRECTLY BY IONIC INTERACTIONS. DOWAINS 5 AND 7 ARE LESS WELL ORGANIZED AND MAY INDUCE FOLDS IN THE MOST SECIES.

-!- FTM: SUBSTRATE OF TRANSCLUTAMINASES, SOME 200 ARGININES ARE PROBABLY CONVERTED TO CITRULLINES BY PEFFIDYLARGININE BENIDASE.
-!- SIMILARITY: IN THE N-TERMINAL SECTION; BELONGS TO THE S-100
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             1-6.
